

**CRANSWICK**  
CONVENIENCE FOODS

I am pleased with the quality of service provided by The Best Connection Group Ltd to us. Professional site analysis conducted by The Best Connection helped to identify all the requirements of our business and all were implemented efficiently by an appointed Project Manager – Mateusz Filipiak from The Best Connection's Managed Services Division in a professional manner.

The Best Connection recruited and trained an Onsite Coordinator whose responsibility is to conduct inductions, manage the Agency workers, and liaise with our Management Team on a daily basis as well as provide monthly key performance indicators.

I am happy by the way The Best Connection work, as well as with their professional yet friendly approach.

They listen and fulfil requirements to our agreed monthly kpis. I can recommend The Best Connection services to any other company requiring onsite services, dealing with the temporary work force or in need of a review of their recruitment needs.
